Dear Mr. Worthington,

The Division finds your amended notice of intention to commence small mining operations (Notice) complete. The amendment was received March 27, 2007, and includes the addition of five acres of new disturbance. The previously-disturbed area has now been regraded and seeded.

In the amendment, you requested a variance from the requirement to wait a full growing season after seeding before expanding the mine while remaining a small mine. The Division approves this variance. Although vegetation in the reclaimed area has not survived a full growing season, it was growing well when last observed on May 25, 2007.

If you have questions or concerns about this letter, please contact Paul Baker at 801-538-5261. Thank you for your cooperation in completing this reclamation work.

Sincerely,

Susan M. White
